

SCHOLARSHIP COMPETITION JUDGING SHEET

ENTRY INFORMATION

Competition Level (Circle): Intermediate Scholarship Advanced Scholarship

Student Name: _____

JUDGING CRITERIA

Please evaluate the candidate's overall oral AND written ability on a scale of **0** (low) to **20** (high)

ORAL ABILITY _____

Consider the following criteria in your evaluation:

<i>Comprehensibility</i>	Intended message is understood with minimal interpretive difficulty on the part of the listener.
<i>Pronunciation</i>	Correct French phonemes: <i>u / ou, i</i> , nasal vowels, /R/, etc.
<i>Fluency</i>	Sentences and phrases sound like sense units, flowing, unrelated to speed.
<i>Clarity & Enunciation</i>	Is clearly heard and understood. Appropriate volume and articulation.
<i>Intonation</i>	Use of correct French stress and vocalic inflexion.
<i>Accuracy</i>	Correct grammar (tense, subject-verb agreement, adjective agreements, object pronouns, gender, etc.)
<i>Vocabulary</i>	Wide variety of word choice, including use of idioms.

WRITTEN ABILITY _____

Consider the following criteria in your evaluation:

<i>Content</i>	Student has responded accurately, thoroughly, and fluently to the essay prompt.
<i>Verb usage</i>	Tense choice and forms are correct. Accurate subject-verb agreement.
<i>Spelling</i>	Spelling is accurate. Mistakes do not detract from comprehensibility.
<i>Grammar</i>	Correct adjective agreements, object pronouns, gender, etc.
<i>Vocabulary</i>	Wide variety of word choice, including use of idioms.

TOTAL FOR THIS JUDGE _____ / **40**

SCHOLARSHIP COMPETITION AWARDS COMPUTATION SHEET

Competition Level (Circle): Intermediate Advanced Level

This sheet is used to compute the ranges of scores for the awards in each level of this competition. Please complete a separate computation sheet for each of the two (2) different categories indicated above.

Remember, French Convention rankings are awarded based upon a mathematical formula, not upon subjective discretion. In order to ensure fairness for all students, please follow the procedure below. If you have any questions at any point, please seek out a French Convention officer for assistance.

COMPUTATION

1. For each entry, add up the total points scored from each judge (sum of **all** score sheets for a given entry) on the Master Score Sheet. This is the entry's composite score. You will use this score to determine the entry's ranking to be awarded.
2. Stack the sets of Master Score Sheets in order, the entry with the Highest Composite Score (**HCS**) being on top. You will use the **HCS** to determine the ranges of the award rankings.
3. Write down the Highest Composite Score in this competition: _____
Multiply **HCS** by .95 (round to nearest whole) = _____ } *Supérieur* range
Multiply **HCS** by .85 (round to nearest whole) = _____ } *Très Bien* range
Multiply **HCS** by .80 (round to nearest whole) = _____ } *Bien* range

RANKING

4. Rankings are awarded as follows:
 - a. Entries with scores ranging from the HCS down to $(\text{HCS}) \times (.95)$ are to be awarded a *Supérieur*.
 - b. Entries with scores ranging from just below the *Supérieur* cut-off down to $(\text{HCS}) \times (.85)$ are to be awarded a *Très Bien*. See ****IMPORTANT**** note below in Section 5!
 - c. Entries with scores ranging from just below the *Très Bien* cut-off down to $(\text{HCS}) \times (.80)$ are to be awarded a *Bien*.
5. ****IMPORTANT**** The highest score may be so high that when you do the calculations in Section 3 above, no other entry lands in the *Très Bien* range. When this happens, you must do the following:
 - a. Remove that super-high score, set it aside, and award it the *Grand Prix*.
 - b. Redo the computations above using the *next* highest composite score in the stack.
 - c. Follow the customary rankings outlined in Section 4.
6. Write the award ranking at the top of each entry's score sheet. Entries with scores below the *Bien* cut-off do not receive a ranking.
7. Turn in all of the Judging Sheets, Master Score Sheets, and this Awards Computation Sheet to the tabulating room. *Merci!*
